

INNINGS of WINNINGS

The Foundational Principles Behind Success in Sports, Business, and Life

Baseball is played by different teams in different cities, but the game is always the same.

The key for any successful baseball team is having the right game plan. Winning teams share a common set of principles to help them navigate nine innings effectively. The same holds true in business.

In his keynote, *Innings of Winnings*, Andy Neary explores the five foundational principles that lay the groundwork for personal and business growth. Success is built when the right foundation is in place.

Andy will show you how leveraging the same philosophy a baseball Manager uses to lead his team for nine innings can lead you and your organization to overwhelming success.

Of course incorporating the right principles requires an ability to get uncomfortable, but no game is won without a little adversity.

Fun, bold, and highly insightful, *Innings of Winnings* will delight your audience and literally change the way they look at the path to achieving success.

Innings of Winnings will show your team the following:

- How to surround yourself with the right people
- The keys to a productive day
- Why your health determines your wealth
- Why you must invest in yourself
- How to ask the right questions
